1. The drawings are objectionable. In this regard, the drawings are dark and very difficult to view. Also, the drawings do not show every feature of the claimed invention as required by 37 CFR 1.83(a). In particular, the drawings do not show the subject matter of claims 7, 8, 12, 13, 18, 23, 24, 28, 35, 36 and 40. Correction is required.

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless -

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

3. Claims 19-22 and 25-27 are rejected under 35 U.S.C. 102(b) as being anticipated by Glaberson et al. '893.

What is being displayed is not being claimed in combination with the display and, therefore, all reference thereto is of no patentable weight.

4. Claims 23-24 and 28 are objected to as being dependent upon a rejected base claim, but would be allowable if

rewritten in independent form including all of the limitations of the base claim and any intervening claims.

5. Claims 1-18 and 29-40 are allowed.

6. The patents to Sinclair, Lucht, Felicety, Ohume, Mellion, Metcalf, Park, Scalice, Girouard, Broeker et al., Darnell et al., and Kolster et al. are cited to show similar structures.
